

Dedicated to Your Success

Exterro's Fusion Core Platform and the Clearwell E-Discovery Platform provide an enterprise solution which extends from legal hold and collections through processing, analysis, review and production. The joint solution combines defensible e-discovery process management with the targeted collection, culling and review capabilities needed to manage each step of the EDRM.

Exterro Fusion Core Platform

Exterro's Fusion is an end-to-end legal governance, risk and compliance management suite. Architected around a centralized workflow platform, Fusion streamlines legal processes by facilitating collaboration and visibility across disparate entities: in-house legal teams, outside counsel, different business units and service providers. Fusion integrates processes and data from many third-party systems, including HR, asset and matter management, and EDRM review tools. Fusion orchestrates essential services, ensuring faster litigation preparation, smarter responses to e-discovery and regulatory compliance requests, and repeatable legal processes through automated workflow management.

Clearwell E-Discovery Platform

The Clearwell E-Discovery Platform is an enterprise-class e-discovery platform that enables enterprises, governments and law firms to manage all of their legal, regulatory and investigative matters with an easy-to-use application. With Clearwell, e-discovery professionals can accelerate data collections, early case assessments and intelligent data cull downs, while increasing reviewer productivity.

Fully Defensible Process

Using the Exterro Fusion™ EDRM connector for Clearwell, during the initial stages of e-discovery attorneys use Fusion to specify legal hold, records retention, destruction, suspension or reengagement requests. Legal matters created in Exterro are automatically and seamlessly published to Clearwell via a secure web services protocol. Data can then be quickly identified and collected, analyzed and culled-down to the relevant facts, and rapidly reviewed in Clearwell.

Benefits to Legal

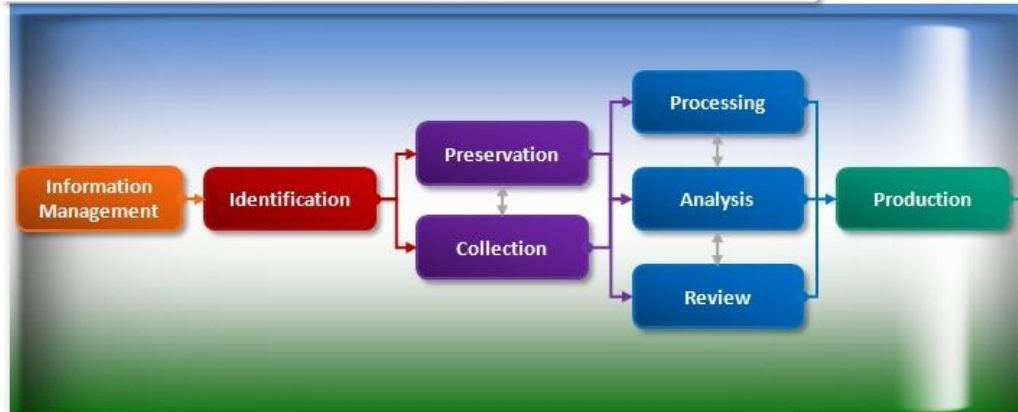

- Eliminate costly movement of data across multiple, disparate tools through flexible, end-to-end e-discovery workflows with legal hold, identification, collection, review and production.
- Suspend or re-engage records policies as appropriate for data affected by legal holds.
- Collaborate with inside counsel, outside counsel, IT teams and records managers on defining and executing collection requirements using extensive collaboration capabilities.
- Identify and collect data from all critical data sources with forensically sound internal collection capabilities.
- Estimate size and cost of e-discovery and gain immediate visibility into case facts by accelerating document processing.
- Prune large datasets to smaller more relevant ones with interactive analysis and culling capabilities.
- Monitor case progress in real-time across the entire e-discovery lifecycle with comprehensive case management, auditing and reporting capabilities.

Addresses Critical Phase of EDRM

Exterro

- Workflow Management
- Process Transparency
- Process Visibility

Clearwell

- Identification and Collection
- Early Case Assessment
- Cull-down
- Review and Production

Benefits to IT

- Suspend or re-engage records retention and destruction policies and corresponding data preservation and disposition processes automatically.
- Target more cost- and resource-effective collections and lighten IT resource workloads by specifying legal hold criteria.
- Identify and collect data quickly from data sources including SharePoint®, network shares, laptops as well as applications collect data quickly from data in the cloud using one powerful GUI.
- Preserve data integrity and chain of custody automatically throughout the e-discovery process.

Clearwell and Exterro

Joint Solution Benefits:

Today's legal discovery process has evolved to become increasingly complex and costly. Companies are now faced with an escalating amount of ESI. Legal matters have grown in frequency, and often involve multiple law firms, custodians and experts in disparate geographies. The Clearwell and Exterro joint offering allows companies to significantly reduce legal risk and litigation costs associated with e-discovery, and delivers immediate control over the information legal teams choose to preserve, collect, analyze and review.
