

Exterro Fusion LawFirm™

Empowering Law Firms to Deliver Greater Value & Price Predictability to their Clients

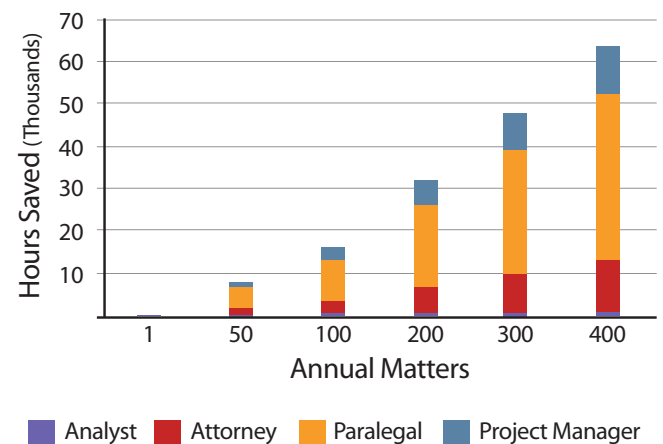

To succeed in today's legal landscape, law firms must expand their e-discovery capabilities. The traditional, fragmented e-discovery approach that relies on disparate point tools and vendors is antiquated and fraught with inefficiency, wasteful duplication of effort and frequent cost overruns. Law firms and their corporate clients are looking for a better process.

With Fusion LawFirm™, Exterro has answered the call and simplified the e-discovery experience for law firms. Designed around the way law firms do business, Exterro's Fusion LawFirm gives legal teams full e-discovery capabilities in one unified suite.

- Predictable and Transparent Pricing:** Fusion LawFirm's predictable pricing schedule with flexible storage options allows legal teams to present accurate budget figures and payment options to clients.
- Intuitive Interface:** Legal teams can begin using Fusion LawFirm immediately after implementation. Fusion's intuitive, easy-to-use interface fosters greater collaboration between law firms and their clients.
- Easy Deployment:** Fusion LawFirm can be installed, administered and maintained in the law firm's choice of environments, on premise or in a hosted, private cloud.
- Seamless Integration:** Fusion LawFirm leverages the power of existing e-discovery investments by ingesting information from matter management systems and common e-discovery tools, such as DataCert®, Recomind®, Clearwell®, StoredIQ, Digital Reef® and Symantec™. Fusion LawFirm also fully supports exports to common review platforms, including Concordance®, kCura Relativity® and Summation®.
- Complete EDRM Solution:** Fusion LawFirm offers one unified, comprehensive solution across the entire EDRM spectrum, including project management, custodian interview, legal hold, collection, early case assessment (ECA), culling, review and production.

Time Savings Grow as Matters Increase

By applying best practices and streamlined, workflow-driven processes, a firm will cut the time required to complete e-discovery tasks. With Fusion LawFirm, legal teams can begin to accumulate time savings immediately with the first matter. Modest time reductions rapidly mount to significant savings with the volume of matters handled.

Estimated Cost for Scenario 1 (Default)

43,690

250 GB

\$95,400

Estimated Cost

EDRM Stage	Total Size	File Count	Total Cost
Culled	120 GB	1,250	\$6,000.00
Review	50 GB	900	\$45,000.00
Production	25 GB	450	\$27,000.00
Total estimated cost			\$83,000.00

Pre-Processing Analytics: At the onset of a case, create cost scenarios with detailed data analytics for Meet and Confer conferences.

Features and Benefits

The Fusion LawFirm™ All-in-One Package:

Specifically designed to meet the needs of law firms, Fusion LawFirm™ consolidates, streamlines and automates the e-discovery process. By utilizing Exterro's unified e-discovery platform, Fusion LawFirm eliminates the continuous need to move data between separate point tools and vendors.

Project Management: Control and manage the e-discovery process through out-of-the-box workflows designed specifically for law firms.

- Gain complete visibility into the entire e-discovery process across multiple ongoing matters.
- Effectively monitor multiple e-discovery tasks, meet legal obligations and ensure defensibility in court.

Interview Custodians: Quickly create custodian interviews and surveys to identify critical information needed to drive e-discovery projects forward.

- Rapidly scope custodians and data sources to provide critical insight to what the key terms, date ranges or custodians are relevant to a specific matter.
- Easily coordinate and conduct depositions and prepare witness testimony for trial.

Synchronized Legal Hold Process: Share a common platform for easily and transparently issuing and tracking legal hold notices between the law firm and corporate client.

- Provide and enforce legal hold notifications for clients through automated written communication and preservation requests.

Easy Ingestion of Client Data: Forensically sound and defensible ingestion from various data sources, including SharePoint®, Lotus Notes®, Microsoft® Exchange, File Shares and more.

- Unified OCR Processing: Streamline document analysis by seamlessly extracting and translating image files to searchable text, so legal teams can start analysis earlier.

Proactive ECA: Quickly probe data and access relevant information at the earliest stages in litigation to generate detailed scenarios that will accurately project the scope and costs of e-discovery matters.

- Establish a clear case strategy.
- Be prepared and ready to negotiate at Meet and Confer conferences.

Analysis and Review: Keyword search with Boolean and proximity operators, faceted search with concept classifiers, fuzzy and phonetic search technologies quickly surface relevant documents while delivering in-depth insight into the critical parts of the matter.

- Automatically remove duplicates and non-responsive documents after data ingestion.
- Quickly identify, categorize, and label documents for relevancy, privilege and other classifications to reduce costs for second level document review.
- On the fly, redact privileged and confidential information prior to production.

Document Export/Production: Produce documents in TIFF, PDF and native file types. For data export all standard industry formats are supported.

For Lawyers

- Detailed budget scenarios for negotiation at Meet and Confer conferences
- Access to immediate, actionable case information, including valuable reports and metrics
- Prevention of cost overruns and surprises
- Reduction of legal risk and exposure

For Paralegals

- Project management, client interviews, document ingestion and evidence review
- Seamless integration of interview results into the ECA process
- ECA analysis before processing a single file
- Customized reports at any stage of the EDRM

For Litigation Support

- Empowered ownership of discovery process
- Elimination of troublesome handoffs between disparate point tools and vendors
- Intuitive design that facilitates swift transitions across multiple e-discovery processes
